## *GS expands into Fife*

DUE to considerable business growth since our formation in 1991, we have expanded beyond our Perth head office into Fife. Mark Amos will manage the new office as Business Development Manager, working closely with Gillian Main who joins the business in January 2010 as Account Executive. Kenneth Blake, who joined the company as Senior Account Executive in December 2009 will also have an active involvement in the development of our Fife business and the servicing of our existing clients. We focus on the commercial and corporate business sectors, providing exemplary client service. We are also members of Willis Commercial Network which ensures our competitiveness on a national level.

Risk Management and Health & Safety services will be provided by our specialist division, headed by Iain Martin. Kelman Chambers has recently been appointed as Senior Financial Consultant to provide pensions and investment expertise through our sister company, G S Financial Services.
